

When you Love Shopping Centers, it Shows

Dedicated to Our Communities,
Our Tenants and Our Customers

Dear Merchant,

CA Tier Update March 31st – Los Angeles and Orange counties granted movement to the less restrictive Orange Tier. Click [HERE](#) to see the latest information for your county.

The Orange Tier allows for most businesses to operate indoors with modified capacity. These operations can begin today, Thursday, April 1st for Orange County and Long Beach and April 5th for the remainder of LA County businesses. For a full list of operation guidelines, please [CLICK HERE](#)

The State of California has modified the parameters and timeframe in which counties can move from tier to tier. The modified and less restrictive tier system also factors the number of vaccines administered in certain areas.

The less restrictive Orange Tier allows for expanded indoor operations including restaurant indoor service to increase to 50% of capacity, gyms to operate at 25% indoor capacity and theatres to operate at 50% capacity or fewer than 200 people whichever is less. It also allows for indoor operations for breweries, wineries, distilleries, bars and family entertainment centers to operate. Please refer to the guidelines for each category of business [HERE](#).

One of the most important measures that will ensure the safety of you, our tenant, customers, and the greater community is getting the COVID-19 vaccine. Please find below the vaccine administration information for the counties in which your businesses operate:
